

# Power UP your dental practice

Give your practice the boost you've been seeking by hiring the dentist's coach - we're Coaching Solutions. Our team is comprised of highly skilled professionals working together with some of the most respected and proven specialists dentistry has to offer. Unlike many other coaching programs, we have a proven dentist-focused approach aimed at enhancing the leadership in your practice, laying the foundation for the success of your team.

We use an in-office coaching team, seminars and doctor/owner coaching continuums in a series of short and comprehensive programs customized to fit your needs and goals, to deliver you the means to build your dream practice.

We're right here in New Jersey, so we're able to follow through on our program. We know the North, South and Central Jersey cultures from living here and working with hundreds of offices.

#### Our short programs include:

- Assistance in hiring, including Internet assessments and evaluations for prospective employees
- Office manual development with custom policy and job descriptions
- In-office team building and case presentation workshops
- Marketing assistance including brochures, websites and collateral materials

#### Our comprehensive programs include:

- Upleveling patient service
- Analysis of fees, teams and profitability
- Team incentive programs
- Clinical and Leadership Mentoring
